About

This database system provides a comprehensive platform for tracking faculty and courses, as well as the visitors. Visitors are anonymous on all reports and can rate the teaching method, classroom management and student engagement for each faculty and each course they teach. It offers a user-friendly dashboard to navigate through the entire database to schedule new visits and add evaluations. On opening the database, you will be faced with the quick access menu and the navigation menu to ensure easy operation navigation.

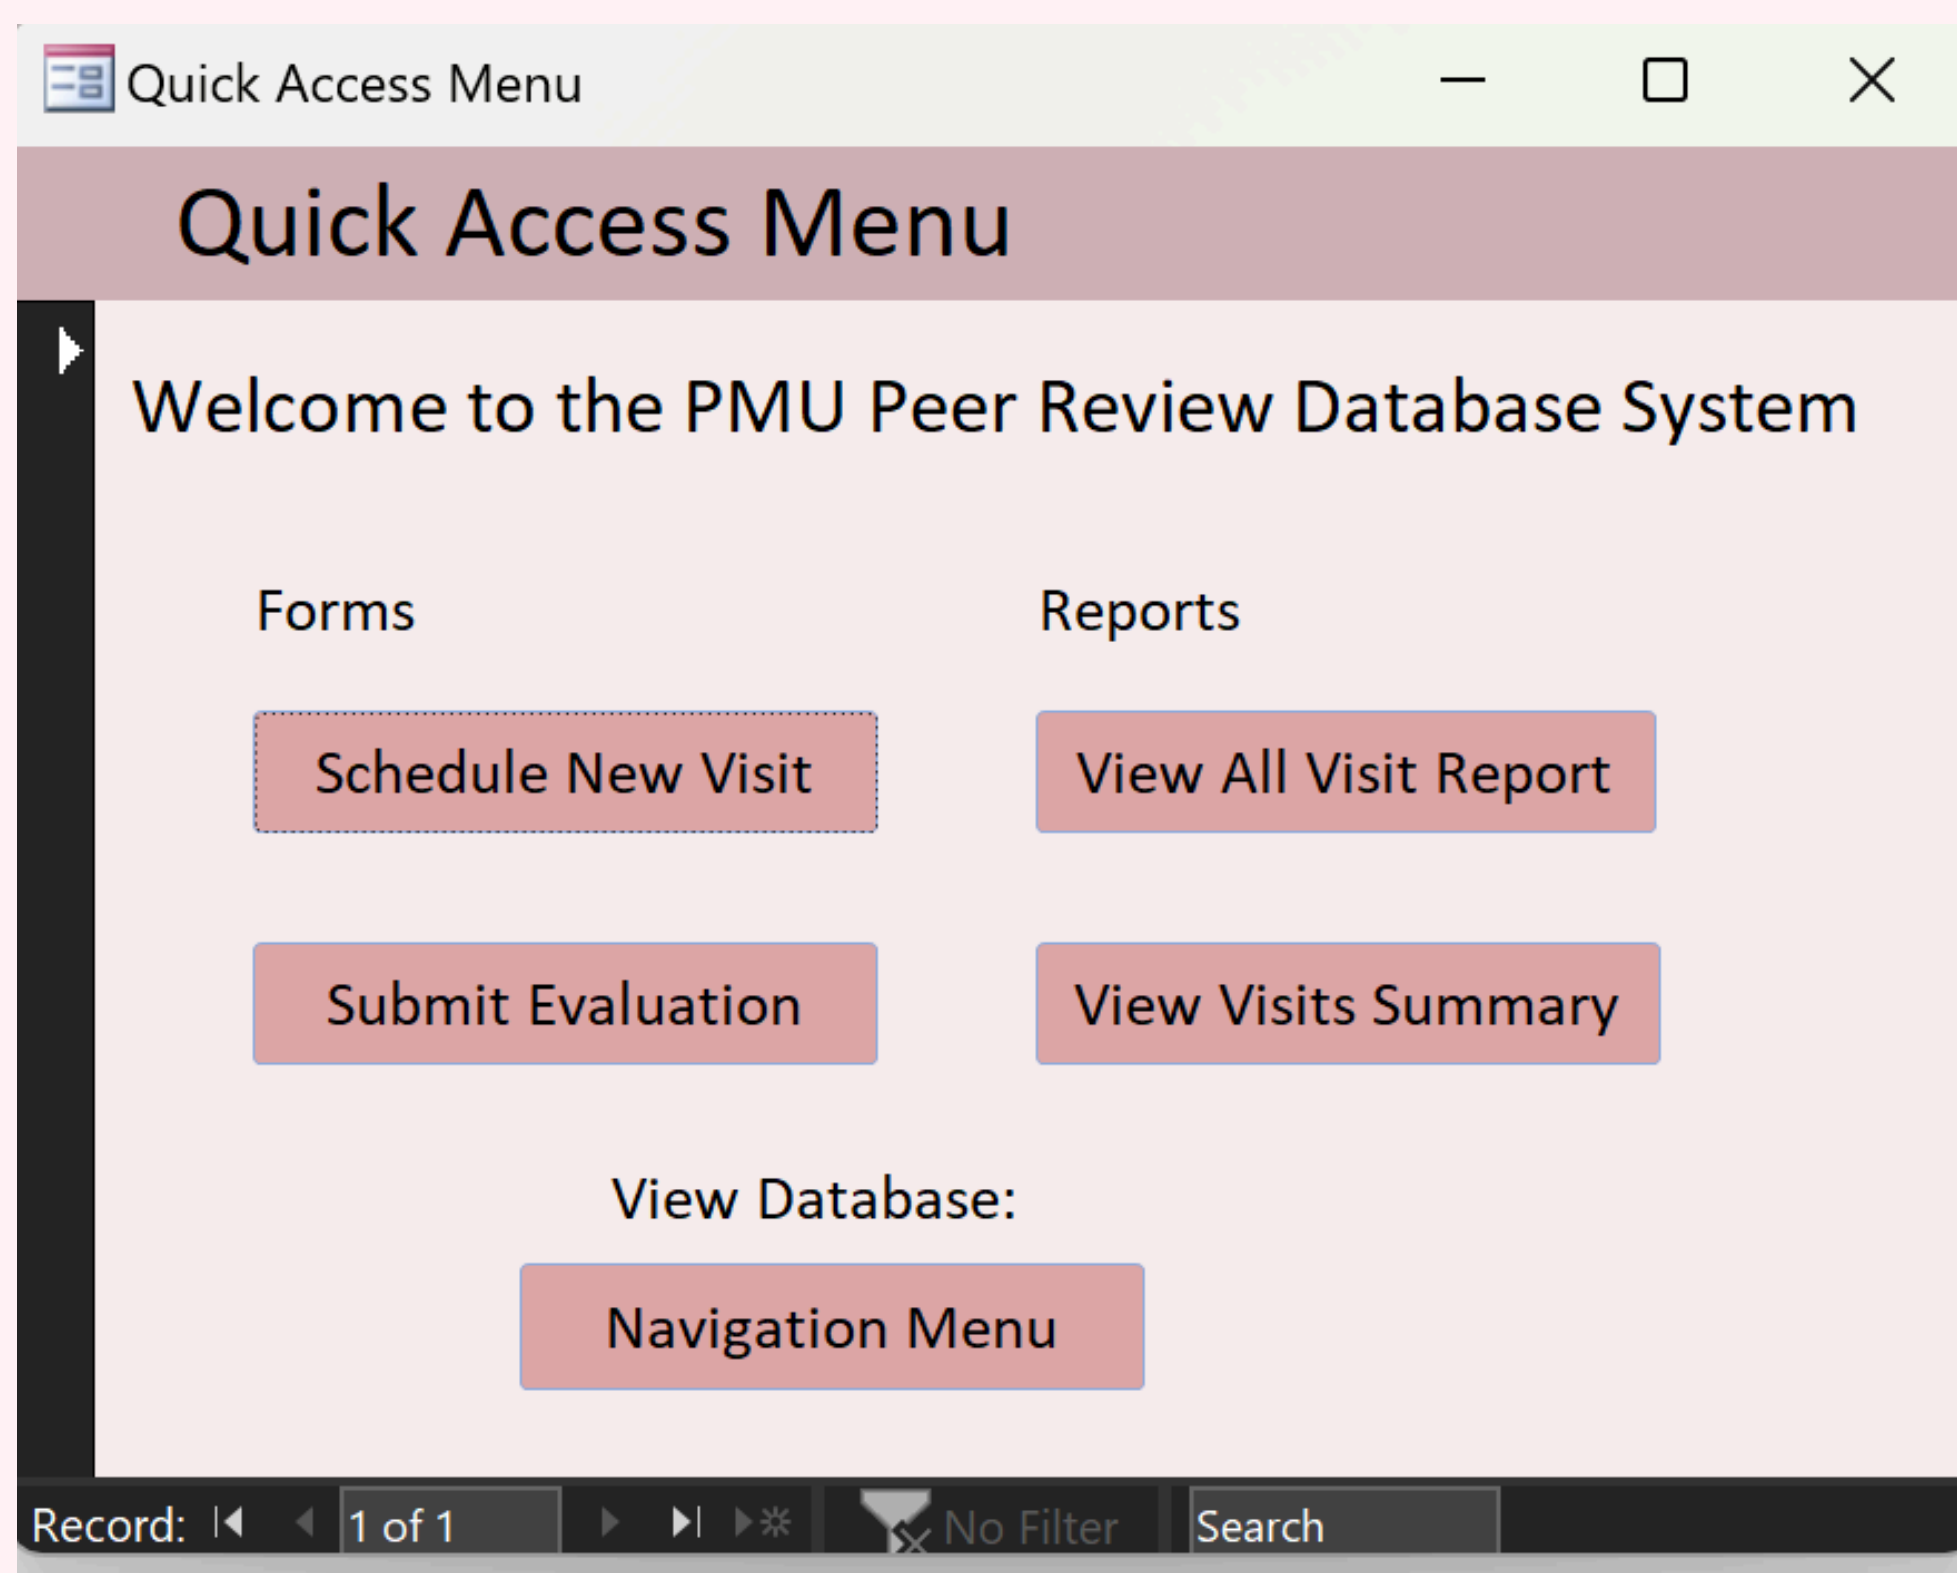

Key Features

Quick Access Menu

Opening the database will show a pop-up menu which shows 5 options. The first two options will lead to the forms where you can schedule a visit and enter an evaluation, in that order. The next two can show the print view of a report on all visits and a summary report. The last option will open the navigation menu from where you can move around the database easily.

Key Features

Scheduling Visits

The main form for scheduling a visit should also be automatically opened when accessing the system.

- Step 1. Select your ID next to your name from the drop down list.
- Step 2. Select the faculty and the course in the list you want to evaluate.
- Step 2. Enter the date of your visit and submit.

The status of your visit will remain pending until you submit and evaluation and it is approved. Note: If you wish to not save the visit in the middle of scheduling, please enter 0 and close the form.

Schedule New Visit

VisitorID (your ID) 0

FacultyID 0

CourseID

ScheduledDate

Schedule Visit

Adding Evaluations:

After your visit, open the Visit Evaluation Form from the main menu to record your ratings.

- Step 1. Select your Visit ID. The update shows the details of the visit next to the ID for easier access.
- Step 2. Enter your rating for each, Teaching Method, Classroom Management and Student Engagement.

Step 3. Feel free to enter any extra comments as well. Submit the evaluation and your ratings will be recorded. The program will automatically calculate the overall average and record it as well as changes the status to completed in the database using SQL Queries.

Submit Evaluations

Note: Ensure you have a scheduled evaluation .

Your Data The course and faculty you scheduled to evaluate.

VisitID

Rate o

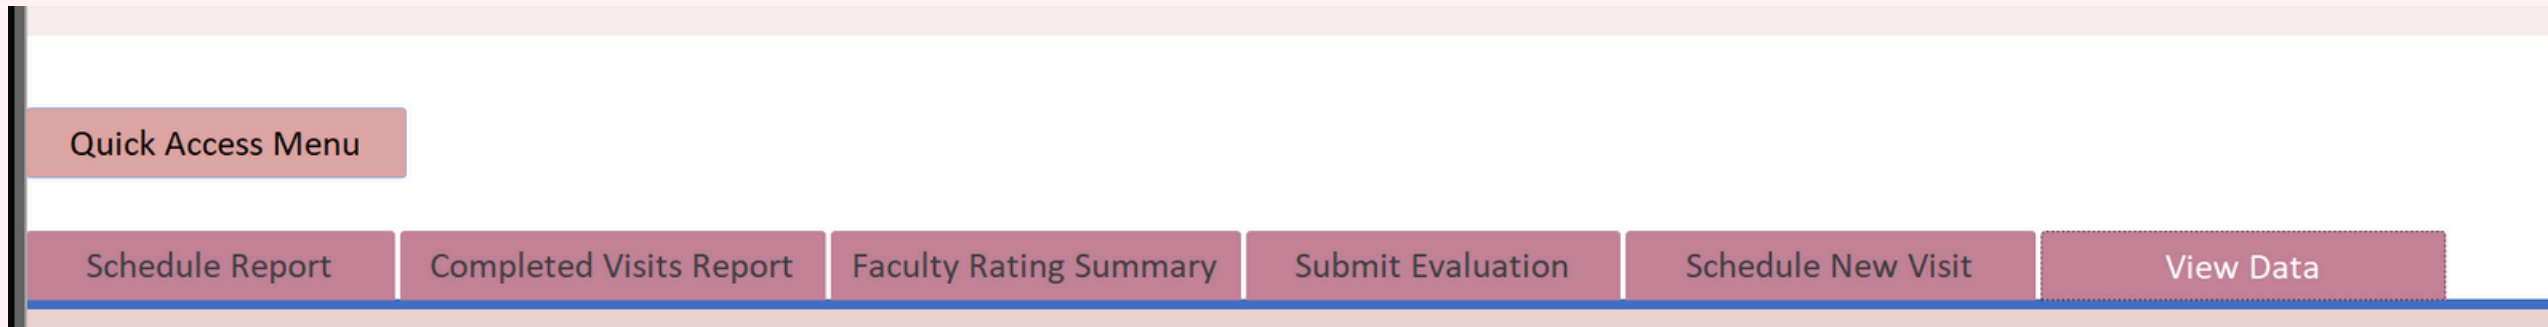

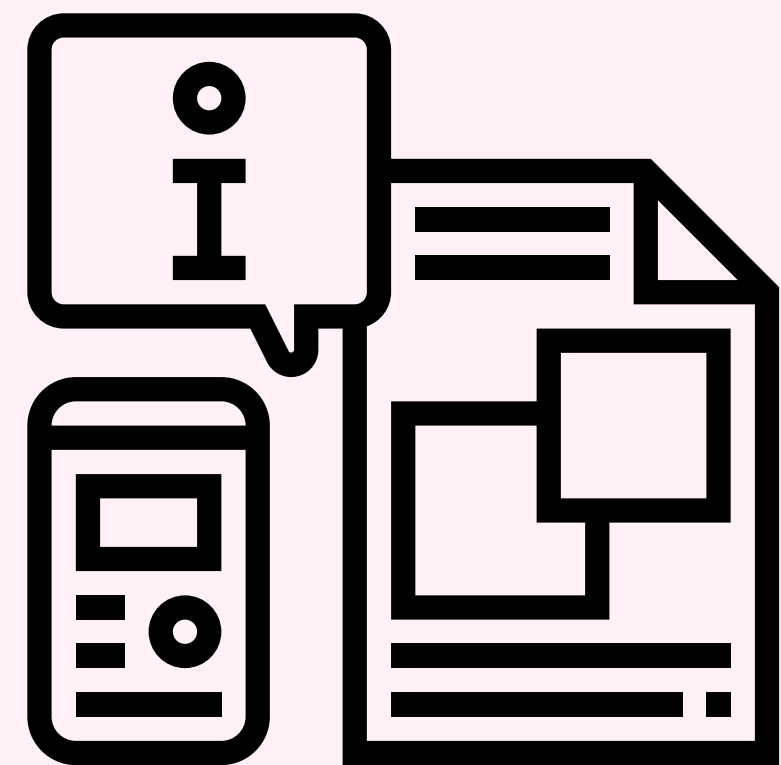

VisitID	VisitorName	CourseName	FacultyName
3	Dr. Sarah Johnson	Computer Science	Dr. Williams
4	Prof. James Thomps	Database	Prof. Brown
5	Dr. Sarah Johnson	Biology	Dr. Davis
11	Prof. Robert Williams	World History	Prof. David Brown
55	Dr. Sarah Johnson	Oral Communication	Prof. Martinez
58	Prof. James Thomps	Finite Math	Dr. Ahmad
73	Dr. Amanda Lee	Computer Science	Dr. Williams
81	Prof. James Thomps	Calculus	Dr. Williams
82	Dr. Jennifer Wong	Psychology	Dr. Sarah Lee

Submit

Navigation Menu

You can access the Navigation Menu from the side bar. The menu can be used to view the summary and all visit schedules. You can view the completed visit reports as well as the forms to schedule visit and submit evaluation.

The tabs allow you to view the existing data, and you can refer to the database to view existing courses and faculty. You can also view all the Visitor IDs as well as their ratings for each faculty. We ensure that the Visitor Data remains anonymous in this database view outside of the participant table.

Navigation Menu				
Quick Access Menu				
Schedule Report	Completed Visits Report	Faculty Rating Summary	Submit Evaluation	Schedule New Visit
View Data				
All Scheduled Visits				
Scheduled Date	Faculty Name	Faculty ID	Status	Visitor ID
9/12/2023	Prof. James Wilson	9	Completed	13
9/12/2023	Prof. Johnson	2	Pending	3
9/15/2023	Dr. Sarah Lee	10	Completed	14
9/15/2023	Dr. Williams	3	Pending	5
9/18/2023	Prof. David Brown	11	Pending	11
9/20/2023	Prof. Brown	4	Pending	4
9/22/2023	Dr. Davis	5	Pending	5
9/25/2023	Prof. Martinez	6	Pending	6
9/28/2023	Dr. Anderson	7	Pending	7
10/2/2023	Dr. Emily Chen	8	Completed	1

Queries

Some other information you can get from the database exist in the queries. You can always put it a request for specific data. Some of the existing queries are from frequently asked questions:

Frequently asked questions:

How many visits have been completed?

Click Here

What are the average ratings for each faculty?

Click Here

How many visits have been scheduled?

Click Here

What are the ratings for specific faculty?

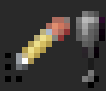

Click Here

How many visits per faculty?

Click Here

The “Update Status” Query is a n action query that automatically changes the status of the visits. If the visit exists in the evaluation, it shows completed or else it will show pending. The query runs automatically when you enter an evaluation, however it needs to be ran manually if you delete the evaluation record.

 UpdateStatus

Future Updates

Look forward to our new updates as well as the complete integration of all our databases. We are working to ensure the maximum enhancement of user experience. Your feedback helps shape our development priorities as we are committed to delivering the best possible faculty evaluation tool.
